

Dear

God's Revolution: One Simple Device Broadcasting Scripture to Thousands

*"How, then, can they call on the one they have not believed in? And how can they believe in the one of whom they have not heard? ... Faith comes from hearing the message, and the message is heard through the word of Christ."
(Romans 10:14a; 17)*

In this new year, I'm so pleased to share a unique opportunity for **you to help bring God's Word to life for thousands of people in the Gulf** who are so desperate to hear this message of hope.

In fact, we are seeing an unprecedented God-revolution happen, thanks to a creative Aussie inventor who has helped develop a unique solar-powered Bible. It's taking the world by storm!

In the modern day equivalent of the printing press – which saw millions receive copies of the Bible – MegaVoice is an exciting form of technology specifically designed to get Scripture into the hands of as many people as possible, breaking through the barriers of language, culture, literacy, age and sight.

MegaVoice is an audio device unlike any other that plays a recording of the Bible for people in their own language. It's durable and lightweight, with a secure message that cannot be erased, and it can be heard by one person, 20 or even *thousands* when amplified.

I am absolutely certain this is God's tool for a time such as this. MegaVoice can go to the ends of the earth like nothing else, reaching the 60% of people worldwide who cannot read by sharing the Bible, in a language that speaks to their hearts.

The demand for MegaVoice is huge: much bigger than we at the Bible Society can fulfil alone. Will you consider giving so we can ride this God-momentum and see more lives transformed?

Lives like the Egyptian farmers attending a church in the Gulf. As their pastor, Adel has a burning desire to see these young men connect with a living God, hear the message of Christ and grow as His disciples.

These men are among nine million immigrants living in the Gulf region: a temporary home for people from Egypt, India, Nepal, Pakistan, China and the Philippines. They are in the Middle East working long hours doing manual labour to make enough money to support their families back home.

MegaVoice is the perfect device for some two million Christian expatriates in the Gulf, a third of whom are illiterate.

Pastor Adel started with just 10 MegaVoice players to give the Egyptian workers in his church who are illiterate, so they could listen to life-changing Scripture in their own language while doing their farming and construction work.

Not only has the Bible been changing their own hearts, minds and attitudes, but their friends on the worksite are now curious about the message on MegaVoice. Praise God!

Adel now has 100 players that the men use to soak up God's Word and to share the Good News around as they interact in over 20 different labour camps.

This simple solar-powered device is discipling throngs of believers and having a powerful impact as it breaks through the isolation many are experiencing.

In fact, some pastors have requested as many as 500 MegaVoice players to meet the demand as they share the Good News among the migrants in their community. Sadly, resources are too limited at the moment to fulfil these growing requests.

Thanks to the generosity of Australians, we have already seen 6,000 MegaVoice units distributed among these migrant workers throughout the Gulf.

But the demand continues to grow at an exponential rate and we desperately need a further 4,000 MegaVoice units in this new year.

Will you partner with us to bring genuine life change for thousands of migrant workers in the Gulf through audio Scripture?

Your generous gift will help us raise the \$240,000 we need in this new year to try to keep pace with what God is doing among His people in the Gulf through MegaVoice.

Let's see what God will do through people like Pastor Adel and the Egyptian farmers as He breaks through into their lives, gently transforming them through the power of His Word!

Yours in Christ,

PS. Currently in the Gulf each MegaVoice unit costs only A\$60 and has the capacity to reach and disciple not just one person, but dozens, indeed thousands of lives!

APPEAL SLIP

YES I want workers in the Gulf to hear the life-changing word of God through MegaVoice!

One MegaVoice unit (A\$60)
10 MegaVoice units (A\$600)
100 MegaVoice units (A\$6,000)
Where needed most
